Career Objective

B.Tech undergraduate specializing in Artificial Intelligence and Machine Learning, seeking an opportunity to apply my technical skills, contribute to real-world projects, and continuously learn in a professional environment.

Technical Skills

Programming Languages: Java, Python, SQL

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn, OpenCV

Core Concepts: Machine Learning, Deep Learning, Database Management Systems, Data Structures, Object Oriented Programming

Tools: GitHub, Google Colab, Visual Studio Code, Figma

Internship

Machine Learning Intern | SkillCraft Technology

Task 1: Hand Gesture Recognition using Support Vector Machine (SVM) 

- Built a hand gesture recognition system using SVM and OpenCV for image preprocessing, achieving 99.8% accuracy across 10 gesture classes.

Task 2: House Price Prediction using Linear Regression 

- Built a Linear Regression model for house price prediction using Python, Pandas, and Scikit-learn, performing data analysis, feature selection, and model evaluation.

Projects

Student Performance Prediction 

- Built a Logistic Regression model to predict student performance using academic attributes, applying data analysis and classification techniques for pass/fail prediction.

Education

B TECH | Maulana Abul Kalam Azad University of Technology, West Bengal

St. Thomas' College of Engineering and Technology, Kolkata | 2023 – 2027 (Pursuing) | Current CGPA: 7.7

12th GRADE | MPC | Board of Intermediate Education, Andhra Pradesh

Sai Kulwanth Junior College, Anakapalle | 2021 – 2023 | 92%
